

Lean Business Course

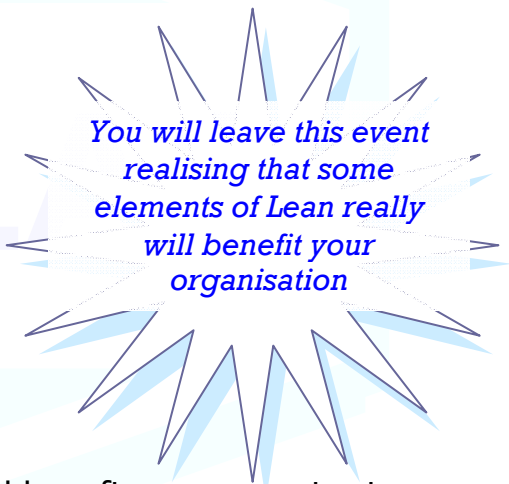

Suitable for

This course provides an overview of Lean business principles and consequently, it is ideal for those who wish understand the key elements of this approach. By the end of this event you will be able to see which aspects of Lean business apply to your organisation and the likely benefits and implementation issues which are applicable.

This event discusses Lean business in a generic format i.e. not specific to a particular type of business or industry. Batalas will provide a similar event for specific public or commercial sector organisations on an in-company basis.

Content

- The key characteristics of a Lean business
 - Understanding customer requirements
 - Eliminating waste
 - Balancing and simplifying work flows
- How Lean concepts apply to different types of organisations and activities
- A typical Lean implementation
- Techniques associated with Lean principles
 - Value stream mapping
 - Process improvement
 - 7 wastes
 - 5S
- Identifying which Lean elements/techniques would benefit your organisation
- Understanding the implementation implications of becoming a lean organisation

You will leave this event realising that some elements of Lean really will benefit your organisation

Certificate

A Batalas attendance certificate for all delegates who complete the course.
